VISION

Become a company that supplies raw materials for Cosmetic and Chemicals and provides formula advice, transfers formulas and supports production techniques to customers.

MISSION

Currently, the cosmetics industry is developing very strongly in the market Vietnamese school. Along with the developing economy, the need for beauty and longevity, spring is an indispensable thing for women and men. Since in the early days of establishment, our company always faced competition fierce competitors-That is foreign representative offices are operating and working in Vietnam market. It is also because of the difficulties this scarf, although 3H Cosmetic was born later, the leadership team, the team the company's employees have determined their own direction, a difference, with the motto "Together- To develop together". We not only supply raw materials imported from countries such as: UK, Germany, USA, Korea, India,... for the production of cosmetics but also "Consultancy-Research-Transfer formula" and production technical support to client. To ensure that the final product of the partners after production products delivered to consumers always achieve the same quality as samples.

STOCKROOM

Stockroom in Ha Binh Phuong industrial park-Thuong Tin-Ha Noi

Stockroom for extract and small goods: 14 Mac Thi Bui

Typical Projects

The above products are made from materials imported from Germany, America, England, France, Korea, Japan with clear certificates of origin. Extracts of natural origin imported directly from Korea, Indonesia.

1. **Makeup remover:** Regular makeup remover is used to remove dirt and excess sebum is deep inside the pores. With surfactants extracted from sugar cane and camomile Extract. They have a deep effect on pores, carrying dirt and quickly remove dirt to the outside, helping the skin to be optimally cleaned, plump but still not dry the skin.
2. **Exfoliating:** Removes dead skin cells, helping nutrients penetrate deep into cells. Makes skin brighter and smoother.
3. **Cleanser:** Used to remove makeup, cells, dead skin, oil, dirt, sebum... Help to deep clean pores, prevent skin conditions like acne and balckheads.

ACHIEVEMENT

4. **Toner:** smells good from rose petal extract used to clean the skin, tighten pores, whiten smooth. Especially with ingredients from seaweed extract to help balance skin and fight wrinkles.
5. **Acti-acne serum:** The main ingredient is a mixture of 6 types of extract (Lotus flowers, beans soy sauce, white bark extract, pear extract, obaku liquid, neem extract). Helps to completely remove all types of acne, pustules, inflammatory acne,... Helps to push the nucleus and remove the acne, so that the acne does not spread and from a nucleus new. Has the ability to prevent new acne from forming as well as re-occurrence. Helps regulate sebum, oily, bactericidal and effective anti-inflammatory.
6. **Anti-Wrinkle Serum:** Scenedesmus Rubescens Extract help increase collagen, helping to increase skin. Small molecule hyaluronic acid 20-50kda helps to provide moisture deep into skin cells.
7. **Sunscreen:** A combination of physical sunscreens and inorganic sunscreens has the effect of reflecting and scattering ultraviolet and infrared rays over a large area. The main inorganic sunscreens used today are zinc oxide (ZnO) and titanium dioxide (TiO₂), which is relatively resistant to sunlight and requires a thick layer to be effective fruit. Zinc oxide provides higher UVA protection, while titanium dioxide dominates more in protecting against UVB rays and producing more whiteness in the skin due to the refractive index higher, especially by seed coating technology. Chemical sunscreens mainly absorb ultraviolet rays and convert them to heat.
8. **Water-soluble body cream:** Cooling skin, sunscreen, turning on skin tone thanks to titanium, molecules. Water is dispersed on the skin to create a cool-smooth feeling. Especially resistant to sweat and water.
9. **Detox mask:** Helps skin stretch and elastic, discharge toxins inside the skin after used it. The main ingredient is a mixture of 6 types of extract: Scenedesmus Rubescens Extract, Hyaluronic Acid, Camomile Extract, Starfish Collagen, Germination Flavone, Blueberry Extract.
10. **Vaginal perfume:** Noble scents, helping her to smell good all day.
11. **Melasma cream:** Contains blueberry extracts, cosmythic to prevent the production of melanin production (Skin pigment that causes skin pigmentation, age spots) helps whiten and fade skin melasma, age spots, help firm skin, anti-aging.
12. **Fat-melting cream:** With the main ingrediants: Capsium Oleoresin and pink pepperslim to help make skin heat, increase blood circulation, inhibit the synthesis of perilipin. Facilitating resolution fat and prevent fat accumulation.
13. **Lipstick:** Contains pigment, oil, wax, emollient, good adhesion, color, layering Lip protective film keeps lips plump.
14. **Perfume:** Used for the purpose of creating body fragrance, pleasant feeling.
15. **Black Hair Oil:** A perfect combination of natural and chemical extracts. Help black-haired customer from the first time.
16. **Skin rash and anti-itch cream:** The main active ingredient is red pine extract of France. There is full clinical evidence for 4 applications of Phap including: anti-irritation, chronic or acute antipruritic, chronic eczema or acute, anti-sunburn.
